

***AUTOMATIC DUST COLLECTION
FOR SMALL SHOPS***

INSTRUCTIONS

***GG1004A & GG1014A
GATE EXPANSION KITS***

Thank you for choosing our Automatic Dust Collection System.

We at Grngate have developed what we hope will be a valuable addition to your shop. Numerous articles have been written about the health risks associated with sawdust. Our goal is to provide you, the woodworker, with both a cleaner and safer shop. Making the entire dust collection operation totally automatic and synchronized with the actual machine operation allows the user to maximize his/her enjoyment of their shop time.

Our staff includes professional design engineers and manufacturing personnel who are also dedicated woodworking enthusiasts. We have tried to address many of the issues with both installation and operation we have encountered over many years of experience. We wish you many years of chip making enjoyment!

Chuck & Petr

MODEL GG1004A GATE EXPANSION KIT WITH SENSOR
or
MODEL GG1014A GATE EXPANSION KIT WITH SWITCH

WHAT'S IN THE BOX

The Expansion Gate Kit has all the components for adding a single gate to your system.

In the box you will find:

- 1- FOUR INCH MOTORIZED BLAST GATE
- 1- TOOL SENSOR with CLIP
or
1- MANUAL SWITCH
- 1- SENSOR CABLE
- 1- SYSTEM CABLE
- 1- INSTRUCTION MANUAL

INSTALLATION

The sensor and gate are installed into your system just as you did for the rest of your gates. Please refer to the "SENSOR MOUNTING" and "GATE MOUNTING" sections on pages 7 and 8 in the STARTER SYSTEM instructions. If you are using a Manual Switch, connect it to the gate in place of a Sensor with the Sensor Cable.

Please contact Grngate at any time if you have questions or concerns regarding your system. You may use our contact page at:

www.grngate.com

email us at:

info@grngate.com

or phone us between 9AM and 5PM during Pacific Time at:

408-872-0504

Again, thanks for selecting our system and we wish you many rewarding and enjoyable woodworking experiences!

NOTES:
